15		23°	4 ↓	Gentle breeze from north
16		23°	4 ↓	Gentle breeze from north

QUESTIONS BY EMAIL

Q: Are there artificial barriers in sprint?

A: No.

QUESTIONS BY EMAIL

Q: Our athletes were thinking about Bulletin point 9.2 Riding off the track, trail or path is generally allowed, but it is forbidden in cultivated land such as orchards, vineyards and similar.

On the map, there is different shades of yellow and in the terrain, those areas are not so clear, especially that "similar" can be used various.

What is the clear limit?

A:

1. No such situations with cultivated areas in the Sprint distance.
2. Map from the model event is not really updated in detail from last year but in the race maps the symbol #401 Open land is used when there is very little grass or no grass and symbol #403 Rough open land is used when there is higher grass.

QUESTIONS

Q: Is there a map flip?

A: No, there is no map flip for the Sprint.

Q: Is the map for the Sprint really A4.

A: Yes, plus-minus 1mm.

QUESTIONS

Q: Can we go to the Quarantine with a car to transport havier materials?

A: No, there will be a mini-bus from the organization to transport the havier materials to the Quarantine.

Q: How shall we organize the returning of these havier materials from the Quarantine to arena after the race?

A: The same way, preferably team leaders only together with people from our crew.

QUESTIONS

Q: Can we go to the Quarantine by bike.

A: Yes, you can go to the Quarantine by bike and team officials are allowed to go back on the same marked route to the Parking/EC and then to the arena when they go out of the Quarantine. It is possible to use the luggage transport for the occasion.

GOOD LUCK!
